August 1983

Honorable Willie L. Brown, Jr., Speaker of the Assembly
Honorable Members of the California State Assembly

Dear Mr. Speaker and Members:

This 1981-1982 edition marks the twentieth year of publication of Hearings and Reports by the Assembly.

As required by Assembly Rule 117 (g) the Assembly Office of Research has maintained "a current record of all research projects being conducted pursuant to the direction or request of the Assembly or by any committee thereof." Through the cooperation of Senate and Joint Legislative Committees, a listing of their study hearings and reports for the 1981-1982 Session is also included.

Originally published in response to frequent requests for this type of information from Members, committees, libraries and the legal community, this report is available to the offices of all Members to facilitate the use of committee research and to provide an historical record of committee activities.

Sincerely,

ARTHUR BOLTON
Director

INTRODUCTION

This record provides a reference to the date, place and subject of study committee hearings and to reports of Assembly, Senate and Joint Legislative Committees during the 1981-82 Session. Prior to 1972 these committees were called interim committees.

The 1981-82 Session convened on December 1, 1980 and adjourned sine die on November 30, 1982. Information is provided in the following order for each committee:

Name of the committee and chairperson during the session.

List of hearings including dates, places, general subjects covered, and availability of transcripts.

List of reports that have been issued during the 1981-82 Session.

Hearings

The "hearings" section lists the study hearings held by each committee. Hearings of standing committees which are scheduled regularly during a session to hear pending legislative bills are not included in this record. Following the subject listing for some Assembly Committee hearings is a stock number and price. These transcripts may be ordered from the following office:

Assembly Publications Office
Box 90, State Capitol
Sacramento, California 95814

A price list of Assembly documents is available on request from that office.

Senate and Joint Legislative Committees establish their own distribution policy.

Even when transcripts are reproduced and listed as "available," there is only a limited number. They should be obtained directly from the committee issuing them and not from the Legislative Bill Room or the Assembly Office of Research.

The essential elements of significant hearings are sometimes summarized or otherwise referred to in the final report of the committee.

Reports

The listing of committee reports indicates the general subject matter of the reports which were issued during the 1981-82 Session.

When Assembly committee reports are available from the Assembly Publications Office the stock number and price are noted in the record. Other reports may be available on interlibrary loan from the California State Library or from one of the complete depository libraries listed on page iii of this record. To obtain copies of reports, inquiry should be addressed to the issuing committee.

DEPOSITORY LIBRARIES

The following are complete depository libraries for all State of California publications including legislative committee hearing transcripts. The Assembly Office of Research has requested that Assembly committees send copies of their hearing transcripts and reports to these libraries:
