Re: Greenaction's Petition to the Radiological Health Branch to Revoke Tetra Tech's Radiological Materials License No. 7909-01

Dear Mr. Perez:

On behalf of Greenaction for Health and Environmental Justice, I write to inquire if the California Department of Public Health's Radiological Health Branch ("CDPH") plans to respond to Greenaction's petition under 17 C.C.R. § 30205 to revoke Tetra Tech EC, Inc.'s ("Tetra Tech") California Radiological Materials License No. 7909-01. The Petition was submitted to you on July 26, 2018 via email. The original Petition and its 25 supporting exhibits are still available online.¹

We have not received a reply from CDPH, nor are we aware of any action by CDPH on the Petition. Meanwhile, the true scope and impact of Tetra Tech's fraud, committed while operating under its Radiological Health Branch license, continues to be exposed.

It is not acceptable for CDPH to fail to respond to Greenaction's well-documented Petition, nor would it be acceptable for CDPH to fail to act on the Petition, which was filed to protect public health and the environment.

The full scope of Tetra Tech's fraud has not been revealed, and CDPH has a duty to investigate. A recent submission by Greenaction to the Nuclear Regulatory Commission provides an update on the expanding impact of the fraud, and new evidence of Tetra Tech's fraud that has come to light since the State Petition was filed

in July, 2018. That Supplemental Filing No. 4 is available online along with all of Greenaction's filings to the NRC.²

Greenaction requests that CDPH respond to the Petition. If we do not receive a response from CDPH by July 31, 2019, we will assume CDPH does not intent to respond.

Any response by CDPH should be sent to Tyler Sullivan (tsullivan@ggu.edu) with a carbon copy to Greenaction (greenaction@greenaction.org) or by mail to the Environmental Law and Justice Clinic at Golden Gate University School of Law.

Thank you for your attention to this matter.

Sincerely,

M. Tyler Sullivan
