ELEVENTH ANNUAL CHIEF JUSTICE RONALD M. GEORGE DISTINGUISHED LECTURE

January 24, 2020

11th Annual Ronald M. George Lecture

The Annual Chief Justice Ronald M. George Distinguished Lecture Series, named after legendary former Chief Justice of California Ronald M. George, shines a light on the vital role of the courts by bringing together judicial leaders to share their perspectives on critical issues facing the judiciary.

Golden Gate University Law Review's Ninth Circuit Survey is the only law review in the nation dedicated exclusively to decisions issued by the United States Court of Appeals for the Ninth Circuit. Every year, the *Survey* showcases key decisions of the court over a variety of legal fields, delving beyond the results of the Ninth Circuit cases to analyze the underlying reasoning, effect, and possible implications on future law, and this year's *Survey* is no different.

The Introduction of this year's *Survey*, written by the Honorable Jacqueline H. Nguyen, details the Ninth Circuit's efforts to promote civic education. The *Survey* features two Notes written by Golden Gate University School of Law students, which you will have the opportunity to hear about from the authors. Each exploring a different area of the law, the Notes in this edition analyze key decisions recently issued by the Ninth Circuit that pertain to 1) the use of the inverse-ratio rule in copyright infringement actions, and 2) the balance between the interests of government employers and the personal autonomy of government employees.

Today, we are honored to welcome the Honorable Morgan Christen, United States Circuit Judge of the United States Court of Appeals for the Ninth Circuit, and the Honorable Ann C. Moonman, Presiding Judge of the Superior Court of California, County of Mendocino.

The Honorable
