Notes from Underground . . .

Golden Gate University Law Library's New Acquisitions List & News June 1994

New Name

James Perry made the winning suggestion for the name of this epistle: *Notes from Underground*. Has a familiar ring to it, doesn't it?

James is a student employee of the law library in the Technical Services Department. He just graduated from Golden Gate with a degree in Political Science and will be attending Boalt in the fall. Thanks James and good luck in law school!

Intern Bade Farewell

Michael Daw has successfully completed an internship at the law library. Michael was a litigator for 15 years before finding the light and enrolling in the library school at San Jose State University. In a cooperative venture between our library and SJSU, Michael worked several hours a week on the reference desk. He picked up some experience and we benefitted from his knowledge and enthusiasm. A big thanks and wishes of good luck to Michael.

New Format for New Acquisitions List

We continue to experiment with the format of our new acquisitions list as we try to find the best way of conveying the information to you. Historically, the list has used subject headings determined by the Library of Congress, the same ones by which our collection and many others across the country are organized and classified.

This time, we've come up with a list of terms which are much more simple and broad, and, hopefully, more closely match nomenclature for major substantive areas of the law.

Subject areas represented in this month's
