VETOED

[AB-130 \(Low\) - Postsecondary education: Higher Education Performance and Accountability Commission.](#)

Establishes the Higher Education Performance, Accountability and Coordination Commission as the state's independent postsecondary education coordination and agency.

Veto Message: *This bill establishes the Higher Education Performance, Accountability, and Coordination Commission as an independent state agency tasked with statewide postsecondary education oversight, coordination, and planning.*

I have long been concerned that our state's higher education systems operate in silos to the detriment of our state's long-term educational and economic health. California must set statewide goals in the areas of access, affordability and success in higher education. To that end, I launched the Governor's Council for Post-Secondary Education to encourage collaboration between systems and to make recommendations to the administration in an advisory capacity. The Council is charged with examining issues relating to future capacity, enrollment, planning, community college transfers, and general education and coordination at the state and regional levels.

Additionally, the 2019-2020 budget included funds to begin the work of building a longitudinal data system to better track student outcomes and increase the alignment of our educational system to the state's workforce needs.

While the intention of this bill is laudable, it is premature to launch a new state body with these aforementioned efforts underway.

[AB-500 \(Gonzalez\) - School and community college employees: paid maternity leave.](#)

Requires that school districts, charter schools, and community colleges provide at least six weeks of full pay for pregnancy-related leaves of absence taken by certificated, academic, and classified employees.

Veto Message: *This bill requires K-12 schools, charter schools and community college districts to provide certificated, classified, and academic employees at least six weeks of leave with full pay for pregnancy or a related condition in addition to any and all other available leaves of absence.*

Providing every California worker with paid family leave is a noble goal and a priority for my administration. However, this bill will likely result in annual costs of tens of millions of dollars that should be considered as part of the annual budget process and as part of local collective bargaining. Moreover, this proposal should be considered within the broader context of the Paid Family Leave Task Force, which is assessing increased paid family leave for all of California's workers.

AB-624 (Gabriel) - Pupil and student health: identification cards: sexual assault and domestic violence hotline telephone numbers.

Requires, commencing July 1, 2020, every public school serving students in grades 7 through 12, including charter schools, and every public postsecondary educational institution and nonsectarian private postsecondary educational institution, to print on student identification cards the telephone numbers for the National Sexual Assault Hotline and a local resource that provides sexual and reproductive health care information, as specified. Requires every private school serving students in grades 7 through 12 to print on student identification cards the telephone number for the National Sexual Assault Hotline. Requires every sectarian private postsecondary educational institution to print on student identification cards the telephone number for either a local sexual assault hotline or for the National Sexual Assault Hotline.

Veto Message: *This bill requires public schools serving students in grades 7 to 12 and public and private nonsectarian universities that issue identification cards to print the National Sexual Assault Hotline telephone number on the issued cards. It also requires some schools and universities to print the number for a local resource that provides sexual and reproductive health care information consistent with the requirements of the California Healthy Youth Act.*

I signed Senate Bill 316 (Chapter 270, Statutes of 2019), which requires schools to list the National Domestic Violence Hotline on student identification cards because I support giving teens and young adults access to resources not readily available in school.

I do not support, however, burdening schools with the job of investigating local reproductive health agencies as the bill would require. There are many agencies across this state that refuse to give women information about all of their reproductive health care options, and I am not persuaded that schools have the appropriate expertise to decide which of these organizations they should direct their students to. Furthermore, I believe the time and money that would be spent on this activity would be better used improving teaching and learning as well as meeting the existing requirements of the California Healthy Youth Act.

AB-710 (Cervantes) - Postsecondary education: cost of attendance: fiscal matters.

Establishes the Housing Cost of Attendance Act and requires an institution in the California Community Colleges, California State University, or the University of California systems and an independent and private postsecondary institution to use the specified items in its calculation of a full-time student's cost of attendance.

Veto Message: *This bill requires the campuses of the University of California, California State University, California Community Colleges, and independent and private postsecondary educational institutions to post specified information regarding students' cost of attendance on their respective websites.*

I share the goal of equipping students and their families with the most accurate and consistent information surrounding full cost of attendance across college and university campuses. However, the educational institutions affected by the bill are already providing much of this

information to prospective students. In addition, this bill requires the use of data points that may not be reflective of the true costs of attendance while ignoring data that could be more informative.

Therefore, I cannot sign this bill.

AB-1075 (Holden) - California State University: speech-language pathologist programs.

Provides to the Trustees of the California State University (CSU) from the General Fund for the 2019–20 fiscal year, contingent upon the enactment of an appropriation for this purpose, for the allocation of funds by the chancellor through competitive grants to speech-language pathologist programs at campuses of the CSU.

Veto Message: *This bill requires the California State University (CSU) to allocate \$3 million appropriated in the 2019 Budget Act for enrollment in speech-language pathologist programs through competitive grants to campuses operating these programs.*

Although I am supportive of the underlying goal of the appropriation, increasing enrollment in California State University speech-language pathologist programs, the CSU Board of Trustees should have the flexibility to determine the most appropriate administrative approach to providing these funds to campuses. Moreover, by requiring the CSU to implement and administer a competitive grant program to award these funds, this bill may result in General Fund cost pressures that were not included in the 2019 Budget Act.

AB-1153 (Wicks) - Mandated Child Abuse Reporting Employee Training Act of 2020.

Establishes the Mandated Child Abuse Reporting Employee Training Act of 2020, requiring each governing board of a California Community College district to: 1) annually train, using an existing online training module or other training, employees and administrator of the district who are mandated reporters on mandated reporting requirements; 2) develop a process for individuals required to receive the training to provide proof that they completed the training within the first six weeks of each academic year or within six weeks of a person's employment with the district; and, 3) develop a process to identify students who are minors enrolled in classes at the district and provide that information to faculty members and employees who are mandated reporters.

Veto Message: *This bill requires community college districts to provide annual training for employees who are mandated reporters on required responsibilities under the Child Abuse and Neglect Reporting Act. This bill also requires community college districts to identify enrolled minors and provide this information to the district's mandated reporters, and to pay for the costs of the required training.*

While this bill is laudable, the law already requires postsecondary educational institutions, including community colleges, to inform employees of their responsibilities as mandated reporters and to obtain a signed statement from that employee acknowledging their

responsibilities. The California Department of Social Services also already provides extensive and free resources for mandated reporters. Moreover, the bill creates a potentially reimbursable state mandate with ongoing Proposition 98 General Fund costs in the millions of dollars. Therefore, I am unable to sign this bill.

AB-1307 (Blanca Rubio) - Student financial aid: Cal Grant program.

Creates, beginning in the 2020-21 award year, a new Cal Grant formula for students attending California independent, nonprofit colleges and universities. The formula is to be set and maintained at 80% of the sum of the General Fund share of the California State University (CSU) marginal cost of instruction and the maximum Cal Grant award for tuition at the CSU.

Veto Message: *This bill, commencing with the 2020-21 fiscal year, shifts the computation for the maximum Cal Grant tuition award for students attending private nonprofit institutions from being set in the annual budget act to a formula driven calculation if these institutions serve specified numbers of transfer students.*

While this is a worthy measure, it creates ongoing General Fund costs in the tens of millions of dollars annually, and should be considered in the annual budget process.

AB-1727 (Weber) - Community colleges: career development and college preparation courses.

Provides that accounting for the amount of full-time equivalent students enrolled in career development and college preparation courses at a California Community College (CCC), which are not open-entry/open-exit courses, may be determined on either census date basis, as specified, or a positive attendance count basis, as specified; requires the CCC Board of Governors to adopt regulations to implement this change.

Veto Message: *This bill requires the Board of Governors of the California Community Colleges to adopt regulations that authorize the use of a census date attendance accounting method to compute full-time equivalent students for certain non-credit courses known as Career Development and College Preparation courses.*

This bill changes how enrollment in these courses is tracked and would likely increase costs by tens of millions of dollars. For this reason, I am unable to sign this bill.

SB-296 (Allen) - Student financial aid: immigrants seeking asylum.

Extends eligibility for the Cal Grant program to students who are noncitizens that have filed a designated application for asylum to the same extent as citizens and other eligible noncitizens, as provided under existing law.

Veto Message: *This bill expands Cal Grant program eligibility to include specified students who have filed an application for asylum and meet other requirements, including all other Cal Grant program eligibility requirements.*

California has progressively expanded access to financial aid and non-resident tuition for immigrant and refugee students, including in the 2019 Budget Act. This year's budget also invests in legal supports and shelter funding to assist asylum seekers, including a family reunification pilot.

This proposal would impose costs on the General Fund that must be weighed in the annual budget process.

For these reasons, I am unable to sign this bill.

SB-484 (Portantino) - Public postsecondary education: community college transfer students.

Requires the governing board of each community college district to direct colleges to identify and notify students who have completed an associate degree for transfer (ADT), to automatically award these students that degree and add the students to an identification system that is maintained by the California Community Colleges Chancellor's Office and would be accessible electronically by the California State University, the University of California, independent institutions of higher education for purposes of streamlining transfer.

Veto Message: *This bill requires community college districts to identify, notify, and automatically award degrees to students who have completed the requirements for an associate degree for transfer by the end of every academic term. This bill also adds the specified students to an identification system that can be accessed electronically by the University of California, California State University, and certain institutions of higher education by the end of every academic year.*

Community colleges should already be identifying and notifying students who have earned associate degrees, associate degrees for transfer, and certificates. The community colleges' apportionments funding formula already provides fiscal incentive for them to do so. Moreover, this bill likely creates a reimbursable state mandate, thereby creating additional cost.

SB-575 (Bradford) - Cal Grants: student eligibility.

Deletes the provisions in law that prohibit a student who is incarcerated from being eligible to receive a Cal Grant award, thereby extending eligibility to incarcerated persons to the same extent as the general population - assuming they meet statutory California residency requirements and meet all deadlines and rules for financial aid (as is required of the general student population).

Veto Message: *This bill would authorize incarcerated individuals to be eligible for Cal Grant awards for postsecondary education.*

Expanding access to higher education for incarcerated students is the right thing to do. Currently, many incarcerated students currently receive higher education at no cost through the California Community Colleges. Only a very small population would benefit from this bill because

of the limited amount of Cal Grant competitive awards available and the age cap on that program of twenty-eight.

I am committed to taking steps to substantially expand access to higher education opportunities for incarcerated students in a thoughtful and more universal way, and will consider options in the context of the budget process.

FAILED PASSAGE OR JURISDICTION CHANGE

AB-232 (Cervantes) – Community colleges: veteran.

Existing law requires the Chancellor of the California Community Colleges to establish, on or before March 31, 2019, an initiative to expand the use of course credit at the California Community Colleges for students with prior learning. This bill would instead require each educational institution to create a poster that notifies pupils of the institution's written policy on sexual harassment and to prominently and conspicuously display the poster in specified public and private areas on campus. The bill would require the poster to be age-appropriate and culturally relevant, be no smaller than 8.5 by 11 inches and 12-point font, and display certain information pertaining to the policy, including the rules and procedures for reporting charges of sexual harassment.

Existing law requires a copy of each educational institution's written policy on sexual harassment, as it pertains to students, to be provided as part of any orientation program conducted for new students at the beginning of each quarter, semester, or summer session.

This bill would require a copy of the policy to be provided to continuing pupils under the same conditions.
