## Accessory Dwelling Units

### AB-68 (Ting) - Land use: accessory dwelling units.

This bill makes changes to accessory dwelling units (ADU) and junior accessory dwelling units law. This bill would prohibit an ordinance from imposing a minimum lot size for an ADU.

*Status: Chapter 655, Statutes of 2019*

### AB-69 (Ting) – Help Homeowners Add New Housing Program: accessory dwelling unit financing.

**As amended July 28, 2020**, this bill would have established a new program in the State Treasurer's Office to help homeowners finance additional housing units, including accessory dwelling units and junior accessory dwelling units, and authorizes the California Housing Finance Agency to issue revenue bonds to fund the program. As introduced his bill would have required the Department of Housing and Community Development to create building standards for accessory dwelling units and small homes.

*Status: Vetoed on September 28, 2020*

### Governor's Veto Message:

To the Members of the California State Assembly:

I am returning Assembly Bill 69 without my signature.

This bill would establish the Help Homeowners Add New Housing Program within the State Treasurer's Office to finance the construction of Accessory Dwelling Units (ADUs) and Junior Accessory Dwelling Units (JADUs) and would require the California Housing Finance Agency (CalHFA) to issue revenue bonds to fund the program.

ADUs and JADUs are a critical tool for increasing the housing supply in California, and access to construction financing remains one of the major hurdles in unlocking their full potential. I was proud to sign three bills last year that built on the state's strongest-in-the-nation ADU streamlining laws.

Access to ADU financing - especially for lower-income California homeowners - is an issue that should be addressed, but the financial structure proposed in this bill would negatively impact affordable housing production, as it could harm CalHFA's credit ratings.

Therefore, I am directing the Business, Consumer Services and Housing Agency to continue departmental efforts to provide increased access to capital markets and opportunities to encourage broader adoption of ADUs and JADUs.

Sincerely,

Gavin Newsom

### **AB-587 (Friedman) - Accessory dwelling units: sale or separate conveyance.**

This bill allows for an accessory dwelling unit to be sold or conveyed separately from the primary residence to a qualified buyer under specified circumstances.

*Status: Chapter 657, Statutes of 2019*

### **AB-881 (Bloom) - Accessory dwelling units.**

This bill removes potential impediments to construction of Accessory Dwelling Units (ADUs) in three ways: limits the criteria by which local jurisdictions can limit where ADUs are permitted; clarifies that ADUs must be ministerially approved if constructed in existing garages; and eliminates for five years the potential for local agencies to place owner-occupancy requirements on the units.

*Status: Chapter 659, Statutes of 2019*

### **AB-953 (Ting) - Land use: accessory dwelling units.**

This bill would have amended Accessory Dwelling Unit and Junior Accessory Dwelling Unit law to address chaptering errors.

*Status: Died in Senate Committee on Governance and Finance*

### **AB-1074 (Diep) - Accessory Dwelling Unit Construction Bond Act of 2020.**

This bill would have enacted the Accessory Dwelling Unit Construction Bond Act of 2020 (bond act), which, if adopted, would authorize the issuance of bonds in the amount of \$500,000,000 pursuant to the State General Obligation Bond Law to finance the Accessory Dwelling Unit Construction Program, established as part of the bond act.

*Status: Died in Assembly Committee on Housing and Community Development*

### **AB-2324 (Friedman) - Accessory dwelling units: prohibition of rent or lease.**

This bill would have prohibit an entity from renting or leasing more than 15 of the entity's accessory dwelling units in the state.

*Status: Died in the Assembly Committee on Housing and Community Development*

### **SB-13 (Wieckowski) - Accessory dwelling units.**

This bill makes a number of changes to law governing accessory dwelling units (ADUs) including: prohibits local ordinance from requiring an applicant for an ADU to be an owner occupant; eliminates impact fees on ADUs that are 750 square feet or less and caps fees on ADUs that are 750 square feet or less to twenty-five percent.

*Status: Chapter 653, Statutes of 2019*

## **Building Standards**

### **AB-191 (Patterson) - Building standards: exemptions: rebuilding after disasters.**

This bill would have exempted homes that are rebuilt after a wildfire or a state of emergency from adhering to current building standards. The structures would only be

required to meet the energy efficiency standards from 2006.

*Status: Died in Assembly Committee on Housing and Community Development*

#### **AB-349 (Choi) - Building standards: garage doors.**

This bill would have required a secondary means of ingress and egress to garages in new single-family homes.

*Status: Held under submission in Senate Committee on Appropriations*

#### **AB-393 (Nazarian) - Building codes: earthquake safety: functional recovery standard.**

This bill would have required the California Building Standards Commission to assemble a working group to investigate and, by July 1, 2021, determine criteria for a “functional recovery” voluntary or mandatory standards following a seismic event for all or some building occupancy classifications.

*Status: Held under submission in Senate Committee on Appropriations*

#### **AB-684 (Levine) - Building standards: electric vehicle charging infrastructure.**

This bill would have required building standards for electric vehicle parking spaces in existing multi-family dwellings and non-residential buildings.

*Status: Vetoed on October 12, 2019*

#### **Governor's Veto Message:**

To the Members of the California State Assembly:

I am returning Assembly Bill 684 without my signature.

This bill would require the Building Standards Commission and the Department of Housing and Community Development to propose mandatory building standards for the installation of electric vehicle (EV) charging infrastructure for existing multifamily dwellings and nonresidential developments.

I agree with the intent of this bill to increase inclusive access to EV charging technology for Californians living in multifamily housing, which is necessary to increase the number of zero emission vehicles on the road.

However, I believe this issue is best addressed administratively in order to balance our charging infrastructure objectives with our efforts to expand affordable housing. Therefore, I am directing the Department of Housing and Community Development to develop and propose a building standard that would increase the availability of EV charging infrastructure at existing multifamily properties, while limiting costs for affordable housing.

California can combat climate change while addressing our housing crisis. We must advance strategies to achieve both goals.

Sincerely,

Gavin Newsom

**AB-1006 (Grayson) - Manufactured or prefabricated housing units: statewide standards.**

This bill would have prohibited a local agency from imposing additional building standards for projects that are constructed using prefabricated and manufactured units, beyond those set forth in the California Building Standards Code.

*Status: Died in Assembly Committee on Housing and Community Development*

**AB-1117 (Grayson) - Peace officers: peer support.**

This bill would have required the California Building Standards Commission to notice meetings on its Internet Website.

*Status: Amended on March 13, 2019 out of the committee's jurisdiction.*

**AB-1923 (Salas) - Residential structures: natural gas shutoff devices.**

This bill would have required the Department of Housing and Community Development to consider whether to propose seismic gas shutoff devices on gas piping in all or some dwelling units and hotels.

*Status: Died in Senate Committee on Appropriations*

**AB-1997 (Nazarian) - Building codes: earthquake safety: functional recovery standard.**

This bill would have required the California Building Standards Commission to assemble a working group to determine criteria for “functional recovery” standards following a seismic event.

*Status: Died in the Assembly Committee on Appropriations*

**AB-2044 (Voepel) - Building standards: energy design rating: accessory dwelling units.**

This bill would have exempted certain accessory dwelling units from the California Energy Code.

*Status: Died in the Assembly Committee on Natural Resources*

**AB-2960 (Gipson) - Shelter crises: fire safety standards: inspections.**

This bill allows a city, county, or city and county to permit the operation of a year-round emergency shelter using reasonable alternative fire and safety standards that do not comply with state building standards for local fire and safety standards if the standards have been approved by the State Fire Marshall.

*Status: Chapter 148, Statutes of 2020*

**SB-280 (Jackson) - Older adults and persons with disabilities: fall prevention.**

This bill requires the Department of Housing and Community Development to investigate possible changes to building standards that promote aging in place and establishes the Dignity at Home and Fall Prevention Act under the Department of Aging

to facilitate “aging in place.”

*Status: Chapter 640, Statutes of 2019*

## **Common Interest Developments**

### **AB-670 (Friedman) - Common interest developments: accessory dwelling units.**

This bill makes any covenant, restriction, or condition contained in any deed, contract, security instrument, or other instrument affecting the transfer or sale of any interest in a planned development instrument and provision in a governing document or an amendment to a governing document of a common interest development that either effectively prohibits or unreasonably restricts the installation of an accessory dwelling unit (ADU) or junior accessory dwelling unit (JADU) in a single-family, planned development void and unenforceable. To the Members of the California State Assembly:

This bill establishes the New Beginning California Program within the Department of Community Services and Development, which would provide a maximum of 50 grants annually to award matching funds of up to \$50,000 to cities, counties, and local continuum of care programs to implement or expand employment programs for homeless individuals.

While the intent of this measure is laudable, it creates General Fund cost pressures and should be considered in the annual budget process. Moreover, the 2019 Budget Act includes \$650 million for local jurisdictions to combat homelessness, of which employment programs are an eligible use.

Sincerely,

Gavin Newsom

**Governor's Veto Message:**

To the Members of the California State Assembly:

I am returning Assembly Bill 1702 without my signature.

This bill requires the Homeless Coordinating and Financing Council to report to the Legislature on or before January 1, 2022, recommendations for statutory changes to streamline the delivery of services and enhance the effectiveness of homeless programs in the state.

The Homeless Coordinating and Financing Council is already in the process of developing a State Strategic Action Plan that will provide a blueprint for how state agencies and departments should align and prioritize their programs and resources, and how the state can support and complement regional solutions to homelessness. I fully support exploring opportunities to streamline service delivery and enhance the effectiveness of our state homeless programs, but these ideas should be incorporated into this plan rather than a separate report. Moreover, the development of the report will incur costs to the General Fund that were not included in the Budget Act.

Sincerely,

Gavin Newsom

*Status: Vetoed on September 28, 2020*

**Governor's Veto Message:**

To the Members of the California State Assembly:

I am returning Assembly Bill 1845 without my signature.

This bill would establish the Office to End Homelessness within the Office of the Governor and realign several of the state's ongoing efforts related to homelessness.

I sincerely appreciate the author's leadership on this issue and the intent of this bill, but I do not support this particular vision of organizational restructuring at this time.

Homelessness has been and remains one of my top priorities, commanding the dedicated attention of a Senior Counselor on Homelessness and Housing in the Governor's office and the dedication of senior members of my Administration including multiple Agency Secretaries. Since taking office in January 2019, we have invested over \$2 billion in new, direct aid for homelessness. I am also proud of our work to implement Project Roomkey and Homekey, which help to protect homeless Californians from COVID-19 during this pandemic.

These initiatives and investments demonstrate our commitment to prioritizing this vulnerable population, no matter what other challenges we confront. And they serve as a proof point of the interagency coordination we have led to develop and implement them successfully.

Homelessness must not be considered in a vacuum.

Our Administration has taken a demonstrably integrated approach to preventing and ending homelessness by empowering leaders in the health care and housing space to work together on coordinated solutions.

Separating policy development on homelessness from that on health care or housing will lead to more fragmentation, not less. Looking at homeless spending through a separate lens, divorced from our health care and housing budgets, will lead to more duplication and inefficiency.

There are certainly ways in which we can improve upon state government's collective work in this area. However, I am not convinced that the approach outlined in this bill is the best path forward.

I am committed to partnering with the author and the Legislature next year to continue making progress on this critical issue.

Sincerely,

Gavin Newsom

This bill would have established that it is the policy of the state that every individual in California has a right to safe, decent, and affordable housing.

*Status: Vetoed on September 28, 2020*

#### Governor's Veto Message:

*I am returning Assembly Bill 2405 without my signature.*

*This bill would declare a state policy that every individual in California has the right to safe, decent, and affordable housing. The bill would also require state departments and agencies to consider this policy when revising or adopting policies, regulations, and grant criteria.*

*This is a laudable goal that I share, and undoubtedly, California must continue to do more to address homelessness. Regrettably, however, I cannot support this bill considering the cost implications of such a policy, estimated at over \$10 billion annually.*

*Moreover, I have always maintained that our efforts must come with greater accountability and better results. Although well-intentioned, this bill is duplicative of existing efforts and may ultimately force us to expend resources without commensurately creating new housing or services for people experiencing homelessness.*

*I am committed to working with the Legislature and local government partners on a detailed strategy to improve behavioral health outcomes and increase housing opportunities for people experiencing homelessness. To make progress, we need more than policy goals. We need tangible funding strategies and legal requirements - this means challenging accepted norms and rejecting the status quo and identifying necessary revenues.*

Sincerely,

Gavin Newsom

*Status: Vetoed on September 29, 2020*

**Governor's Veto Message:**

I am returning Assembly Bill 2746 without my signature.

This bill would require recipients of state funding for the CalWORKs Homeless Assistance Program, the Housing and Disability Income Advocacy Program, and the Whole Person Care pilot programs to submit annual data reports regarding the use of program funds to the Department of Social Services and the Department of Health Care Services, respectively.

My Administration is exploring ways to increase transparency in our homeless assistance programs and improve the efficiency in the delivery of those services to those who most need the help. This is important work, and we are dedicated to this effort. Unfortunately, the requirements of this measure are duplicative of existing requirements and would create additional, unnecessary data collection costs. For these reasons, I am unable to sign this bill.

Sincerely,

Gavin Newsom

To the Members of the California State Senate:

I am returning Senate Bill 5 without my signature.

This bill would establish the Affordable Housing and Community Development Investment Program through which local agencies may redirect property tax revenue for schools to fund affordable housing and related infrastructure.

California is in a housing crisis, and I have consistently maintained we need to use all the tools in our toolbox to address it. However, this bill would increase costs by \$2 billion annually once fully implemented. Legislation with such a significant fiscal impact needs to be part of budget deliberations so that it can be considered in light of other priorities.

I will continue to work collaboratively with the Legislature next year to continue to support increased housing production at all income levels across our state.

Sincerely,

Gavin Newsom

*Status: Vetoed on September 30, 2020*

**Governor's Veto Message:**

To the Members of the California State Senate:

I am returning Senate Bill 182 without my signature.

This bill would impose certain fire hazard planning responsibilities on local governments and would require cities and counties to make specified findings on fire standards prior to permitting development in the very high fire hazard severity zone.

I strongly support strengthening land use planning requirements in order to better protect our communities from wildfire. The importance of reducing the number and impact of fires in our communities cannot be overstated. However, this bill creates inconsistencies, duplicates existing requirements, creates a loophole for regions to not comply with their housing requirements, fails to account for consequences that could increase sprawl and places significant cost burdens on the state.

New state laws and policies are already directing housing to communities near transit, jobs and urban centers and away from fire risk areas, including integration into the current housing planning cycle. Additionally, the 2019-20 Budget requires the California Department of Housing and Community Development, in collaboration with the Governor's Office of Planning and Research, to develop recommendations to improve the regional housing need allocation process to promote and streamline housing development to address California's housing shortage.

Wildfire resilience must become a more consistent part of land use and development decisions. However, it must be done while meeting our housing needs.

For these reasons, I am returning Senate Bill 182 without my signature.

Sincerely,

Gavin Newsom

*Status: Vetoed on October 13, 2019*

#### Governor's Veto Message:

To the Members of the California State Assembly:

I am returning the following bills without my signature:

AB 411

SB 532

These bills authorize certain cities' redevelopment successor agencies to spend stranded bond assets on affordable housing rather than repaying and cancelling the bonds as required under current law.

The bills will result in a General Fund cost of millions of dollars.

While I appreciate the intent of the Legislature to increase the production of affordable housing, I do not support the proposed exemptions to redevelopment agency dissolution requirements, which will which will reduce funding available for education.

Sincerely,

Gavin Newsom

### **AB-1084 (Mayes) - Redevelopment: housing successor: Low and Moderate Income Housing Asset Fund.**

This bill would have allowed a housing successor that owns and operates a housing asset of a former redevelopment agency) to retain “excess surplus” accumulated over eight years rather than four years without triggering the requirement to encumber the funds or transfer the funds to the Department of Housing and Community Development within three years.

*Status: Vetoed on October 12, 2019*

#### Governor's Veto Message:

To the Members of the California State Assembly:

I am returning Assembly Bill 1084 without my signature.

This bill extends the period of time that certain housing successor agencies of former redevelopment agencies can retain "excess surplus" funds from four years to eight years.

California is experiencing a housing crisis because of decades of underproduction. This is due, in part, to jurisdictions with former redevelopment agencies that did not use the funds to develop mixed-income housing as required. This bill sets a precedent to extend the retention of excess surplus funds for additional jurisdictions, including those that did not meet their affordable housing obligations. It also increases costs outside of the budget process. For these reasons, I cannot support this bill.

Sincerely,

Gavin Newsom

**AB-1437 (Chen) - Local government: redevelopment: revenues from property tax override rates.**

This bill would have allowed a portion of property taxes to be paid out of the Redevelopment Property Tax Trust Fund to pay voter approved taxes for a mobile intensive care program called "Paramedics."

*Status: Vetoed on October 13, 2019*

**Governor's Veto Message:**

To the Members of the California State Assembly:

I am returning Assembly Bill 1437 without my signature.

This bill allows a portion of property taxes in the City of Brea to be paid out of the Redevelopment Property Tax Trust Fund to pay for a voter-approved paramedic program.

The dissolution of redevelopment agencies (RDAs) in 2011 has returned substantial property tax revenues to cities, counties and special districts to support core services. This bill would increase General Fund costs outside of the budget process. Further, it is important to note that when existing obligations are paid off, all of the paramedic tax will revert to the City.

For these reasons, I cannot sign this bill.

Sincerely,

Gavin Newsom

### **AB-1732 (Flora) - Redevelopment: successor agencies: asset disposal: City of Manteca.**

This bill would have authorized the successor agency to Manteca's former redevelopment agency to sell property at less than market value to a nonprofit organization.

*Status: Vetoed on October 12, 2019*

#### **Governor's Veto Message:**

To the Members of the California State Assembly:

I am returning Assembly Bill 1732 without my signature.

This bill allows the successor agency to the former redevelopment agency in the City of Manteca to sell a specified property for less than fair market value if the property is sold to a nonprofit that will provide resources to individuals experiencing homelessness.

Combatting the homeless crisis requires coordination at all levels of government as well as with nonprofits and the private sector. The state has stepped up with a historic \$1 billion investment in the budget and a suite of tools to make it easier for local governments to build emergency shelters and supportive housing. While I am supportive of additional local tools to address homelessness, this bill provides for an increase in state costs and reduction in local revenues outside the budget process.

Sincerely,

Gavin Newsom

### **AB-1857 (Chen) - Local government: redevelopment: revenues from property tax override rates.**

This bill would have allowed a portion of property taxes to be paid out of the Redevelopment Property Tax Trust Fund (RPTTF) to pay voter approved taxes for a mobile intensive care program called "Paramedics."

*Status: Amended on May 7, 2020 out of the committee's jurisdiction*

### **AB-2224 (Mayes) - Redevelopment: housing successor: Low and Moderate Income Housing Asset Fund.**

This bill would have allowed the housing successor of the City of Indian Wells, City of La Quinta, and the County of Yolo that owns and operates a housing asset of a former redevelopment agency to retain "excess surplus" accumulated over eight years rather than four years without triggering the requirement to encumber the funds or transfer the funds to the Department of Housing and Community Development within three years.

*Status: Died in the Assembly Committee on Housing and Community Development*

### **AB-3009 (Mullin) - Redevelopment: successor agencies: administrative cost allowance.**

This bill would have made changes to the formula for calculating a successor agency's administrative cost allowance by providing that, for the period covering January 1, 2021, until June 30, 2021, and for each fiscal year thereafter, the administrative cost allowance shall be up to 3 percent of the actual property tax the department authorized in the preceding fiscal year for payment of approved enforceable obligations, prior to any reductions made.

*Status: Died in the Assembly Committee on Local Government*

### **SB-532 (Portantino) - Redevelopment: City of Glendale: bond proceeds: affordable housing.**

This bill would have authorized the City of Glendale to use remaining redevelopment agency (RDA) bond proceeds for predevelopment, development, acquisition, rehabilitation, and preservation of affordable housing.

*Status: Vetoed on October 13, 2019*

#### **Governor's Veto Message:**

Governor's veto message: To the Members of the California State Senate:

I am returning the following bills without my signature:

AB 411

## **Tenants and Rent Control**

### **AB-36 (Bloom) - Residential tenancies: rent control.**

This bill would have made changes to the Costa Hawkins Act (the Act) to authorize an owner of residential real property to establish the initial and all subsequent rental rates for a dwelling or unit that has been issued its first certificate of occupancy within 20 years of the date upon which the owner seeks to establish the initial or subsequent rental rate, or for a dwelling or unit that is alienable separate from the title to any other

dwelling unit or is a subdivided interest in a subdivision and the owner is a natural person who owns 10 or fewer residential units within the same jurisdiction as the dwelling or unit for which the owner seeks to establish the initial or subsequent rental rate, subject to certain exceptions.

*Status: Died in Assembly Committee on Rules*

#### **AB-724 (Wicks) - Rental property data registry.**

This bill would have required the Department of Housing and Community Development to create an online rental registry of all residential rental properties in the state.

*Status: Died in Assembly Committee on Appropriations*

#### **AB-1399 (Bloom) - Residential real property: rent control: withdrawal of accommodations.**

This bill makes changes to the Ellis Act to: 1) clarify that owners may not pay prior tenants liquidated damages in lieu of offering them the opportunity to re-rent their former unit; and 2) clarify that the date on which the accommodations are deemed to have been withdrawn from the rental market is the date on which the final tenancy among all tenants is terminated.

*Status: Chapter 596, Statutes of 2019*

#### **AB-1482 (Chiu) - Tenancy: rent caps.**

This bill limits rent-gouging in California by placing an upper limit on annual rent increases: 5 percent plus inflation. To prevent landlords from engaging in rent-gouging by evicting tenants, this bill also requires that a landlord have and state a just cause, as specified, in order to evict tenants who have occupied the premises for a year. Both the rent cap and the just cause provisions are subject to exemptions including, among others: housing built in the past 15 years, single family residences unless owned by a real estate trust or a corporation. This bill sunsets after ten years and does not preempt any local rent control or just cause ordinances.

*Status: Chapter 597, Statutes of 2019*

#### **AB-2895 (Quirk-Silva) - Mobilehome parks: rent caps.**

This bill would have prohibited mobilehome park management and mobilehome owners from increasing rent more than five percent plus the percentage change in the cost of living.

*Status: Died in Senate Committee on Judiciary*

#### **AB-3088 (Chiu) - Tenancy: rental payment default: mortgage forbearance: state of emergency: COVID-19.**

Establishes a moratorium on evictions for non-payment of rent due to COVID-19 financial hardship, subject to numerous conditions, until January 31, 2021. Makes small landlords eligible for protections under the Homeowner Bill of Rights until 2023. Places minimal requirements on mortgage servicers and lenders in addressing mortgage forbearance. Makes technical and clarifying amendments to AB 1482 (Chiu), the

Tenant Protection Act of 2019.

*Status: Chapter 37, Statutes of 2020*

**SB-18 (Skinner) - Keep Californians Housed Act.**

This bill deletes the sunset date on the requirement to provide a tenant 90 days' written notice in the case of a foreclosure.
